## **Miralix software for Philips Business ConneCT**

The well-known Miralix NW Email, NW Calendar & NW SMS are soon available for Philips Business ConneCT too.

The Miralix software automatically displays the calendar status for the internal parties while the call is in progress in Philips Business ConneCT. The operators using Philips Business ConneCT are able to give the customers information about the availability of the employees and can easily send phone messages via Emails or SMS as required.

## **The same product ID**

The Miralix product ID's for the Miralix software for Philips Business ConneCT are exactly the same as the product ID's for the Miralix software for Philips SSV60E.

So when you place orders for Miralix software for the Philips Business ConneCT you need the following product IDs:

1001-0100	Miralix NW Email, NW Calendar, NW Log & NW SMS (Full) version 3
1001-0200	Miralix NW Email, NW Calendar, NW Log & NW SMS (Express) version 3

Using the same product ID's enables you to replace Philips SSV60E incl. Miralix software ver.3 with the new Philips Business ConneCT platform without purchasing a new Miralix license!

Kind regards  
Miralix A/S  
Preben Kirkeby
